

Subject: Walker-Retirement System

Pass On:

I just had a call from a friend whose wife is retired extension agent in St Croix County and is now back there working in another kind of professional job. Anyway, spread the word - she just got back from a regional meeting and the word there was that Walker is saying that after he wins the recall election, he plans to push thru the legislature a plan to abolish the state retirement system and convert everyone to 401 K which will reduce our pensions by at least a third. And then he can have the rest of the money for whatever he wants.

Tell everybody you know, included those already retired, because if Walker wins we are all in big trouble. This would include everybody under the State retirement system, teachers, UW, etc.

This is not a rumor, he is openly talking about it in Madison, it just isn't being publicized. Remember how nobody thought he would do anything to the union.
